

Jetic Gū

Columbia College

Please remember to include your name and student number. This is an **INDIVIDUAL** assignment.

You are required to utilise basic HTML to write a small webpage containing your answer to the following questions. For a sufficient tutorial on how to do so, I recommend: <https://www.w3schools.com/html/default.asp>

You must make sufficient effort to ensure the submitted webpage is properly formatted. Failure to comply will result in a ZERO grade. Your submission must be a zip file with the following file structure:

```
answer.zip
  index.html
```

Lab 7

Create an HTML File

In your text editor, create an HTML file named `index.html` with the following content.

```
<!DOCTYPE html>
<html>
<head>
  <title>CSCI101 Lab 7</title>
</head>
<body>
  <h3>CSCI101 Lab 7</h3>
</body>
</html>
```

1. The first part in your `<body>` tag should include a list tag, containing 3 names from your favourite comic book or TV series.
2. The second part in your `<body>` tag should contain three sections.
 1. Each section should start with a `<h5>` tag for the title;
 2. Each section should then be followed by a small paragraph or bulletpoint. Use <https://www.lipsum.com/> to generate some random text.

Grading criteria

- Your submission should meet the above requirement.
