

Jetic Gū

Columbia College

This assignment is due on 19 Oct. 2020. This assignment is an individual work.

Please remember to write your name and student number.

Please submit a single PDF for each assignment. Handwritten submissions and proprietary formats (e.g. Pages or MS Word) will not be accepted.

Assignment 2

1. Multimedia technology has completely reshaped the education industry. Read this article: <https://medium.com/@dsilvestre/lessons-from-amusing-ourselves-to-death-by-neil-postman-962221ee622> , discuss the difference between internet provided media and televisions. More specifically, I want you to focus on 3 important aspects: Irrelevance, Impotence, Incoherence. Yes, you will need to read the article first to understand this question. (~250 words)
2. List 3 pros and 3 cons for Virtual Reality technology and Augmented Reality technology, then discuss how you think these technologies will take part in our future. (~250 words)
3. Choose a particular challenge we mentioned in Lecture 4, discuss why it is important. You will need to perform some internet research and include citations to backup your opinions. (~250 words).
4. On the point of robots impacting the human job market, we raise a few points during in-class discussion:
 1. The fact that new technology will make some jobs obsolete;
 2. The fact the new technology will create new professions;
 3. The fact that the required training/education for these new professions will increase.

With these 3 points in mind, discuss how robots might reshape the education industry and job market in the future. (~250 words).

Grading criteria

- The main grading criteria is going to be the quality of your writing. If you've invested enough effort, you will be rewarded with a decent grade. Make it interesting, try to learn something new from your own research.
- References should be cited correctly. I recommend <https://www.citethisforme.com>.
