

Jetic Gū

Columbia College

This assignment is due on 11 April 2020

You must submit according to the instructions by the word. Please make sure you also **name your files correctly.**

Please submit a single ZIP for each assignment. Handwritten submissions and proprietary formats (e.g. Pages or MS Word) will not be accepted. You will need to include the files as instructed in the ZIP package.

Lab 9: NodeJS

1. Task 1, Host your resume.

It is common nowadays for people to host their resumes on the internet. You must copy the content of your `task3` from Lab 8.

1. Create a folder called `task1`. The following steps need to be carried out inside this folder.
2. Copy the entire content of your `task3` from Lab 8 here.
3. Create a `start.js` that launches a NodeJS local http server listening to port 80 and serves your resume.

2. Submission format

- Your submission should be a single ZIP file named after your student ID. (e.g., for student ID 123456, I should submit 123456.zip)
- File structure inside the zip file:
 - task3
 - start.js
 - anything you need, html css javascript files, etc.
- Failure to comply to the submission format will lose you all marks.
